Exp No: 2

2. Design a user interface prototype for a mobile station using Figma, considering connectivity and convenience.

Aim:

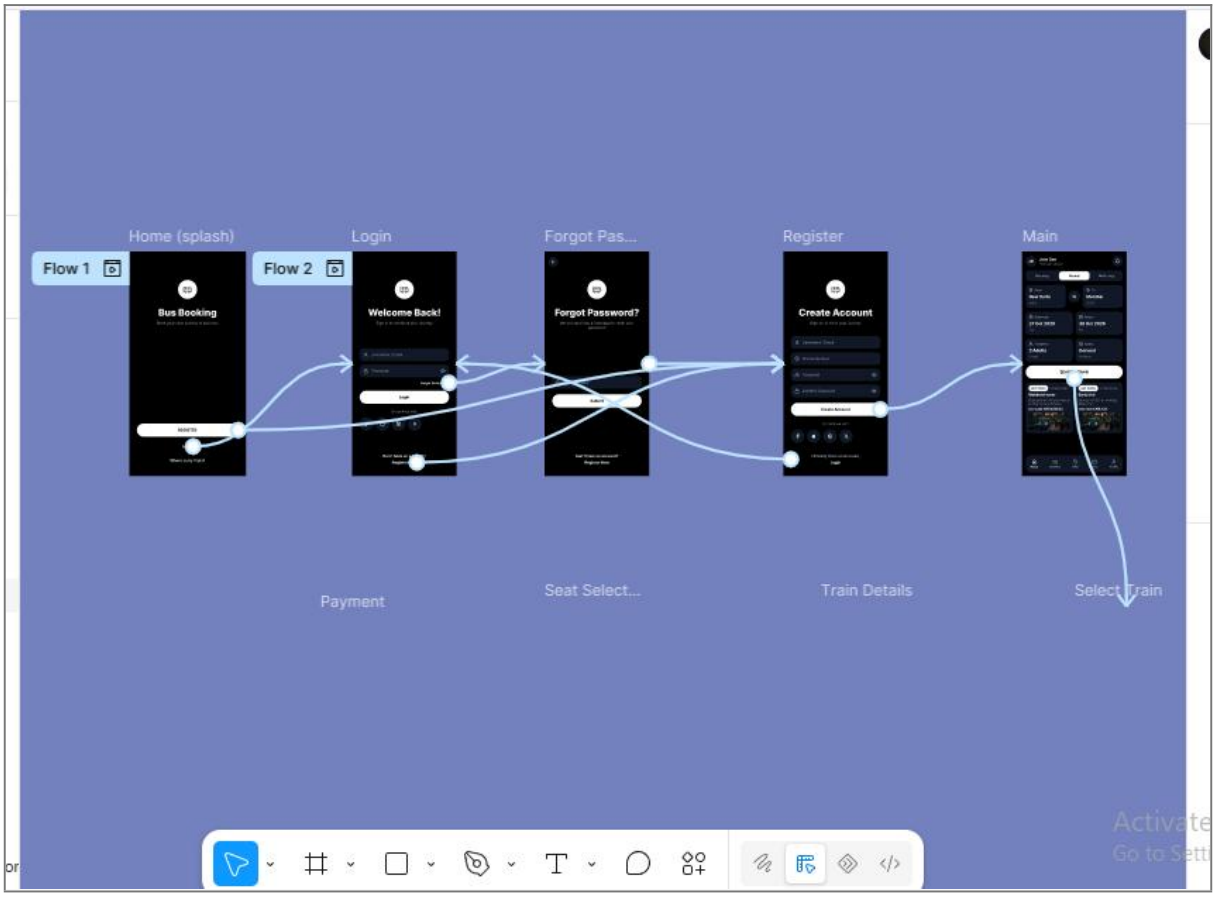

To create a user interface prototype for a mobile station using Figma, considering connectivity and convenience.

Procedure:

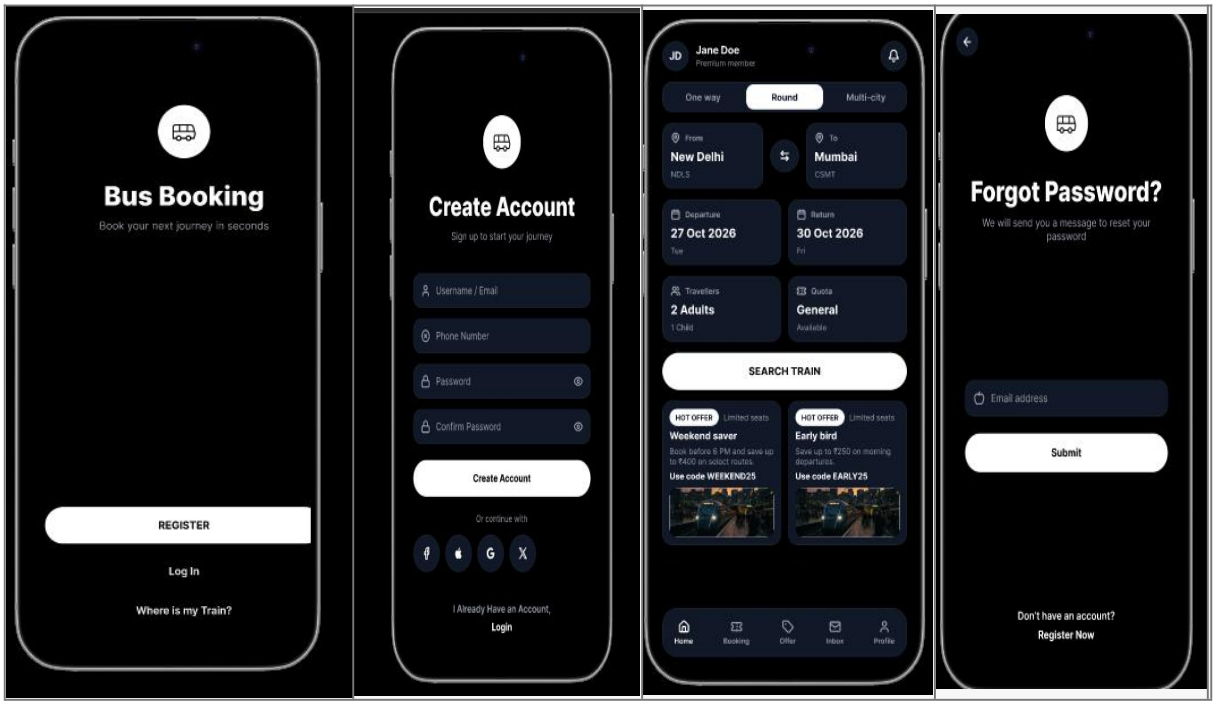

1. Open Figma.
2. Create a new design file.
3. Select the Frame tool and add a mobile frame for each screen.
4. Design the visual elements (buttons, text fields, cards, colours).
5. Make it interactive by linking the screens in the Prototype tab.
6. Add icons on the frames.
7. Incorporate multimedia.
8. Storyboard the animation using Smart Animate or Dissolve.
9. Review and edit the prototype using the Present mode.
10. Save and share the file.
