Exp No: 1

1. Use Figma to create an interactive diagram illustrating the components of a basic cellular system.

Aim:

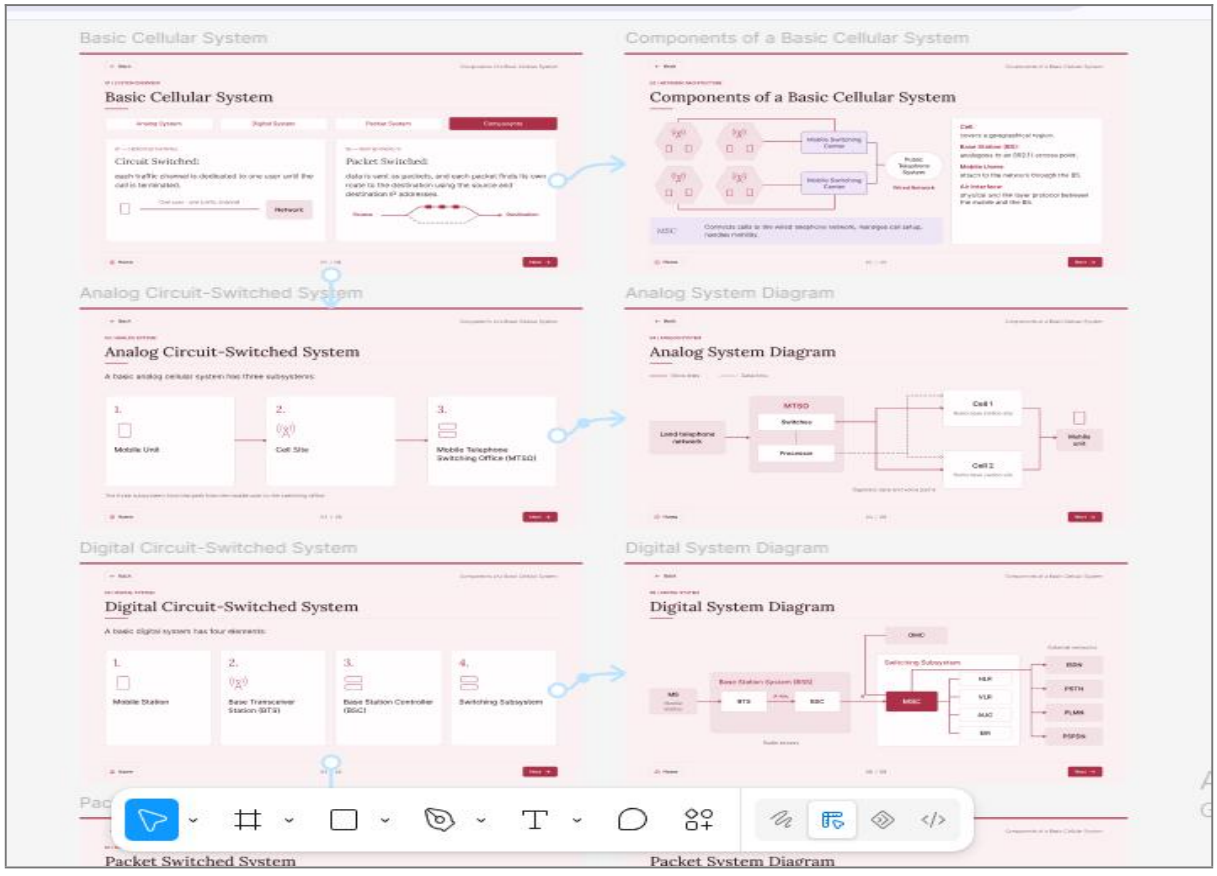

To create an interactive diagram illustrating the components of a basic cellular system.

Procedure:

1. Open Figma.
2. Create a new design file.
3. Select the Frame tool and add frames (slides) for each screen.
4. Fill in the content required for the presentation.
5. Design the visual elements (shapes, icons, colours, images).
6. Make it interactive by linking the frames in the Prototype tab.
7. Add annotations and explanations.
8. Incorporate multimedia.
9. Storyboard the animation using Smart Animate or Dissolve.
10. Review and edit the prototype using the Present mode.
11. Save and share the file.
